

DERMATOLOGICAL SURGERY

WONDER OF TUMESCENT ANESTHETIC FOR VARIOUS DERMATOLOGICAL SURGERY CASES

R Singh⁽¹⁾

Dr R Singh, Private Practice, Durban, South Africa⁽¹⁾

INTRODUCTION: Tumescent anaesthetic has revolutionized liposuction; however there are many other uses for tumescent anaesthetic. This talk will highlight the other uses of tumescent anaesthetic apart from liposuction, and how it has revolutionized procedures in the rooms

OBJECTIVES: Tumescent anaesthetic was founded by a dermatologist, Dr Jeffery Klein. It was initially used for liposuction; however it is becoming increasingly popular as dermatologists now use it for various other forms of treatment. This talk illustrates the various other uses of tumescent anaesthetic and how it can make life easier for the dermatologist

METHODS: Tumescent Anaesthesia was founded by the famous dermatologist, Dr Jeffery Klein. The Klein solution is used widely, however, it is totally underused in South Africa

RESULTS: This talk illustrates the various uses of tumescent anaesthetic in South Africa in both general and cosmetic dermatology. It is used in the excision of basal cell carcinoma, cauterization of warts, etc. A video will be shown on how to prepare tumescent anaesthetic

CONCLUSIONS: As above
