24th WORLD CONGRESS OF DERMATOLOGY - MILAN 2019
In memory of Professor Sergio Chimenti

Professor Sergio Chimenti: 1949-2016
Professor and Chairman of Dermatology, Tor Vergata University of Rome, Italy

Prof. Sergio Chimenti, after a BA and a PhD at the Sapienza University of Rome, soon became one of the youngest Scholar of Dermatology in Italy. His ability to gather young fellows and his skills for innovation were immediately evident. His initial field of interest was dermatopathology following Prof. Ackermann’s example and teaching. Very proactive, while always respectful of his seniors, he was ready to launch into a modern discipline of Dermatology.

That is how his career took off. As a full professor and one the youngest and most distinguished Chairmen in Italy, regularly attending the most relevant international conferences, he then moved to the Dermatology Clinic at the University of L’Aquila, which he completely renovated turning it into an internationally innovative dermatology centre. Some of its residents of the time are now central figures in the Italian and International Dermatology community. Prof. Chimenti then became Director and Chairman of the Dermatology Department in the University of Rome ‘Tor Vergata’ where he could even enhance his scientific, cultural and organisational
skills. In a few years, his Department became one of the most appreciated in Italy, attracting medical staff, students, scientific studies, clinical trials, financial resources, organising masters, workshops, congresses, courses, and each of us, with him, had the chance to improve our own career.

Talking about his curriculum vitae in detail would take too long. He wrote more than 500 papers, was a member and founder of the main Italian and International Dermatological Societies: Italian Society of Dermatology and Sexually Transmitted Diseases (SIDeMaST), International Society of Dermatology, International Society of Dermatopathology, International Society for Dermatologic Surgery, European Organization for Research and Treatment of Cancer, European Society for Dermatological Research, European Dermatologic Forum, International Dermoscopy Society, International Society of Teledermatology. His main fields of interest were dermatopathology, non-melanoma skin cancers, melanoma, cutaneous lymphomas (he was part of the committee who classified these neoplasms), dermoscopy (he was one of the most involved in the design and use of this non-invasive approach), teledermatology, psoriasis, definition of treatment guidelines, treatment protocols.

His organisational resources were never limited to his own staff and clinic. He was a tireless cultural promoter of Dermatology both in Italy and abroad, through every possible channel, in order to sustain our discipline before, and sometimes in spite, of scientific authorities, policies, administrations. He had an extremely eclectic nature; those who knew him personally know how versatile he was beyond medicine, i.e. in sport, art, entertainment, always striving to bring together his group, the people who never left him.

Having reached the maximum in his career, he could have reduced his commitment in order to devote himself to his many other interests. Nevertheless, he preferred to carry on in the same way and through his tenacity, he was able to bring to Italy, in Milan, the 24th World Congress of Dermatology in 2019, where he had to act as President, an extraordinary result for the Italian Dermatology.

We would still have a lot to learn from him and we will always miss him very much.

Thank you Professor Sergio Chimenti

1 WELCOME
Dear WCD2019 Delegates,

Welcome to Milan and the 130th anniversary of the first global dermatology congress that took place in Europe in 1889. This week we are delighted to be hosted by the Italian Society of Dermatology (SIDeMaST) and look forward to sharing professional experiences, knowledge, and skills for improving patient care and promoting “Skin Health for the World”. The WCD has previously been held on 23 separate occasions and now takes place only once every four years under the auspices of the International League of Dermatological Societies (ILDS).

The Milan WCD has been many years in the making and represents the vision of the late Professor Sergio Chimenti who dreamed of inviting the world’s dermatology community to his home country. All of us are grateful to WCD2019 President Giovanni Pellacani, Secretary-General Ketty Peris, and their dedicated team of Italian colleagues and staff for their tireless devotion to making Sergio’s dream become a reality. The WCD2019 Scientific Chair Christopher Griffiths has built an amazing programme by drawing on key international experts in dermatology and medicine. This will be one of the most comprehensive and inclusive programmes you will find at any dermatology conference.

To ensure the continuity of our global dermatology community, we will be selecting the host city for the next WCD in 2023 and also electing new ILDS Board members during our time together in Milan. Stay tuned to the latest news by following our social media accounts @ILDSderm on Twitter, Facebook and Instagram.

It has been an honour to serve as your ILDS President over the last four years. I’ve been inspired by the creativity and dedication of dermatologists around the world and remain confident that we will collectively meet the challenges and embrace the opportunities facing dermatology in the years to come. I also want to gratefully acknowledge the day-to-day activities carried out by our hard-working ILDS staff based in London.

WCD2019 and the ILDS are fortunate to be supported not only by dermatologists and their official societies, but also by nurses, allied health professionals, patient groups, industry, and non-governmental organisations. Thank you for travelling to Milan and contributing to the success of WCD2019. What a great opportunity for each of us to learn something new from someone from a different part of the world! I know that this will be one of the best events you’ve ever attended.

Cheers

Professor Harvey Lui, MD, FRCPC
President, ILDS
Dear Colleagues and Friends,

The Italian Society of Dermatology (SiDeMaST) is honored to host the 24th World Congress of Dermatology (WCD) in Milan from 10-15 June, 2019. It is held under the auspices of the International League of Dermatological Societies (ILDS).

We are very proud that this prestigious event is being held in Italy, as it has been over 40 years since we last hosted the world’s dermatologists. Milan has a rich historic heritage, dating back to when it was the capital of the Western Roman Empire. While in Milan, Leonardo da Vinci, the quintessential Renaissance artist and scientist, drew his iconic Vitruvian man and painted the world renowned Last Supper. The city is adorned with many gorgeous buildings, from both past and present. Today Milan is a dynamic and trendy city, a renowned international centre for fashion and design as well as the arts and science.

There are convenient connections to the other great cities of Italy, including Venice, Florence and Rome, as well as the lakes region.

MiCo - the Milan Congress Venue is ideal for such a great Congress and it is glad to accommodate the WCD participants, Sponsors, and Exhibitors.

The Congress focuses on major breakthroughs and advances in Dermatology, ranging from clinical practice to research, technology and innovation. There are many opportunities for experienced clinicians as well as young dermatologists, nurses and allied professionals. Outstanding dermatologists from around the world play a vital role in every WCD session as chairs, co-chairs, and speakers.

The Congress offers a varied social programme to provide an opportunity to meet old friends and make new ones. We are confident that our scientific organisation, together with the well-known Italian hospitality, make the 24th WCD a memorable event and we hope to leave a mark for the future!

We welcome you all to Milan!
Dear Colleagues and Friends,

On behalf of the Italian Society of Dermatology and Sexually Transmitted Diseases (SIDeMaST) I warmly welcome you to Milan. SIDeMaST was founded in 1885 and, as such, it is, at the best of our knowledge, the most ancient Dermatological Society in the world. In its long history, SIDeMaST has received three times the honor to host the ILDS World Congress of Dermatology: Rome (1911), Padua-Venice (1972) and now Milan. We sincerely hope that, also this time, the Congress will be a great success.

As to now, there is a broad spectrum of interesting and valuable international dermatology congresses, but the WCD is for sure the best venue for sharing our professional perspectives in the evolving field of dermatology, as we learn from our global colleagues. It is the best arena to present and discuss new scientific knowledge, new clinical skills, new technologies to explore normal and pathological skin and advanced educational experiences.

Altogether, these advancements will strengthen even more the special place that dermatology has in the world of medicine.

This is also a special occasion to present the activities of SIDeMaST in research, education and patient care in all fields of our specialization. Therefore, we are pleased to invite you at our sessions that will take place at breakfast time (7 to 8 a.m.). There will be six to seven sessions running concurrently each morning, a unique hour dedicated to meetings of the subgroups of SIDeMaST and focused on the spectrum of interests of Dermatology such as skin pathology, photobiology/phototherapy, immuno-pathology, skin oncology, aesthetics, non-invasive diagnostic techniques, skin surgery, lasers, STDs, disorders of the mucosae and trichology. A few of these sessions will be run by sister Italian societies of dermatology, that have given a substantial help in the organization of the WCD2019 and will demonstrate their scientific relevance.

Advancements will be presented by Italian leaders who are well known worldwide.

Besides the meeting’s many educational offerings, I would like to encourage everyone attending WCD2019 to actively and enthusiastically participate to social events, all happening in the scenario of Milan, a city that is not only full of wonderful monuments but it is also famous worldwide for its high quality and style of living. Finally, do not forget to have time to visit the surrounding Lombardy Region with its magnificent ancient towns that are full of artistic treasures, breathtaking mountains, sweet hills and spectacular lakes.

The World Congress of Dermatology is the world’s oldest international dermatology meeting. Italy has had the privilege to host the World Congress of Dermatology in 1911 in Rome and 1972 in Padua-Venice. Therefore it is an honour for Italy to renew its hospitality to the world’s oldest international dermatology meeting.

SIDeMaST – Italian Society of Dermatology

The Italian Society of Dermatology (SIDeMaST) was founded in 1885 to promote the study and advancement of dermatology as a whole.

The main aims of the Society are:
- Promote Scientific Meetings and updating courses;
- Discuss the deliberations of local Authorities regarding dermatology and sexually transmitted diseases;
- Elect a regional delegate with the task of reporting to the Executive Board local issues related to dermatology and sexually transmitted diseases.

Officially founded in 1935, the International League of Dermatological Societies (ILDS) has been promoting skin health around the world for over 80 years. Its forerunner began in 1889 as the first of many World Congresses of Dermatology.

Today, the ILDS represents dermatology at the highest level. We have over 175 Member Societies from more than 80 countries and represent over 200,000 dermatologists. ILDS works closely with partners around the world including the World Health Organization (WHO), with whom we are in official relations, in order to improve skin health for all people around the world.

Every four years the World Congress of Dermatology (WCD) is held under the auspices of the ILDS. Since 1889 the World Congress of Dermatology has provided an opportunity for dermatologists to come together to share their clinical experiences and scientific advances at both a professional and personal level. The 24th World Congress of Dermatology in Milan, Italy, celebrates this 130 year history.

During the Congress the ILDS presents a number of awards. The ILDS Young Dermatologist Achievement Award recognises five young dermatologists, selected from ILDS Member nominations, for their work in under-served areas. We also present our highest accolade, the Medal for Achievements in Global Dermatology and in 2019 an ILDS Citation (see box for details).

The ILDS holds its Ordinary General Meeting (Assembly of Delegates) during the Congress. At this Meeting ILDS Member Societies and Affiliated Member Societies vote on the election of ILDS Board Directors, the location of the next World Congress of Dermatology and other governance matters.

**ILDS Awards presented during the 24th World Congress of Dermatology**

**ILDS Medal for Achievements in Global Dermatology** presented to Prof Roderick Hay in the Opening Ceremony, in recognition of leadership and many years of dedicated service to promoting dermatology within the international health community and advancing progress in humanitarian dermatology.

**ILDS Citation** presented to Dr Robert Chalmers in the first Plenary Session, in recognition of his leadership and many years of dedicated service in developing the dermatology component of the World Health Organization International Classification of Diseases 11th Revision (ICD-11) as a landmark standard for skin disease.

**ILDS Young Dermatologist Achievement Awards** presented during the ILDS Emeritus Reception to Helmut Beltraminielli, Brian Kim, Sudip Parajuli, Michelle Rodrigues and Thiago Jeunon de Sousa Vargas.
We provide strategic leadership, leveraging ILDS’ international standing and representation to influence global health policies and practices and to educate and empower dermatologists, their societies and the public.

  - ILDS Young Dermatologist Achievement Award
  - ILDS Medal for Achievements in Global Dermatology

Through our projects and activities, we are working to improve the dermatological care of patients in under-served areas of the world.

- Providing financial support to projects in Argentina, Cambodia, Mexico and Tanzania
- Supporting scholarships for the Advanced Diploma in Dermato-Venereology at the Regional Dermatology Training Centre in Moshi, Tanzania
- Distributing US$30,000 annually for ILDS DermLink projects
- Producing, printing and mailing over 10,000 issues of the Community Skin Health Journal to nearly 200 countries

ILDS Members in action

Our Members are at the heart of what we do and are the driving force behind our vision to attain the best possible skin health for all people around the world.

Members are involved in a broad range of ILDS activities; contributing through consultation and presentations to ILDS meetings and events, as well as having recently taken part in the field-testing of ICD-11 and the translation of the ILDS Glossary for the description of cutaneous lesions.

Recognition and Awards

The ILDS, as part of its work in global dermatology, aims to recognise dermatologists and others in the field of dermatological care who have made an outstanding contribution to improving the experience for people with skin diseases. ILDS Members can nominate individuals for:

- ILDS Certificates of Appreciation; dermatologists who have made an outstanding contribution in International Leadership or Humanitarian Dermatology
- ILDS Young Dermatologist Achievement Awards which recognise young dermatologist’s contributions to international dermatology and are presented during the World Congress of Dermatology

ILDS World Skin Summit

The ILDS Summit is a unique global event that involves the leaders of ILDS Members. The Summit provides a collaborative forum for sharing and discussion, enabling leaders in dermatology to consider and develop strategies to improve skin health at local, national, regional and global levels. Collectively participants represent the geographical diversity of ILDS’ membership.

Throughout the 2018 Summit sessions, delegates shared concrete proposals for how the ILDS and dermatological societies can work towards a vision of skin health for the world.

The Summit provided ILDS with rich information on the issues affecting Members around the world as well as feedback on existing ILDS activities and ideas for new ILDS activities.

Key action areas are:

1. Working with the World Health Organization (WHO)
2. Endorsing guidelines
3. Defining training curricula and training standards
4. Sharing educational programmes and resources
5. The definition of a dermatologist
6. Working with the ILDS
7. ILDS’ humanitarian programme: the International Foundation for Dermatology (IFD)
8. Working with patient groups
9. Fostering volunteer engagement

World Congress of Dermatology (WCD)

The WCD is held under the auspices of the ILDS and it is representatives of ILDS’ Members who select the location of the Congress during the ILDS Assembly of Delegates Meeting.

ILDS Members are also key to the development of the Congress Scientific Programme. This process begins with submitting suggestions for moderators, speakers and “rising stars” in order to achieve a wide ranging and geographically diverse coverage of all aspects of dermatology in the Scientific Programme.
World Skin Health Day

Skin disease is one of the most common human illnesses and is the fourth leading cause of disability worldwide. World Skin Health Day raises awareness about the wide ranging impact of skin disease, as well as supporting people to receive treatment in their local communities.

In 2018, World Skin Health Day activities took place across the globe, from Canada and China to France and the Philippines.

World Skin Health Day 2018 reached over 89,000 people.

Outreach clinics were a common activity and reached many people by providing treatment and screening. Alongside this there were social media campaigns and press releases, as well as awareness walks and educational workshops.

Skin Conditions included in World Skin Health Day 2018

Acne; Alopecia Areata; Atopic Dermatitis; Discoid Lupus Erythematosus; Eczema; Entomophthoromycosis; Erythema Multiforme; Erythroderma; Genital Warts; Hair Loss; Herpes Zoster; Leishmaniasis; Leprosy; M ycetoma; Pemphigus Vegetans; Phytophotodermatitis; Psoriasis; Scleroderma; Skin Cancer; Syphilis; Systemic Lupus Erythematosus; Trophic Ulcers; Tuberculosis Verrucosa Cutis; Tuberous Xanthomas; Haemangiomas; Vitiligo; and Vulvovaginal Candidiasis.

2018 Highlights

In April, the Indian Association of Dermatologists, Venereologists and Leprologists (IADVL) observed World Skin Health Day across India. They held several multi-media awareness campaigns, rallies, health education programmes and screening clinics. During this period, IADVL dermatologists treated and screened 24,000 patients.

In July, the Nigerian Association of Dermatologists (NAD) provided skin care products and food in an Internally Displaced Persons (IDPs) camp in ‘Durumi’, which is located on the outskirts of Abuja, Nigeria. They provided free medical and dermatological care to 171 patients. This event was covered by local and national media agencies.

In October, the French Society of Dermatology launched an online dermatology platform that provides educational resources on a wide range of skin diseases and conditions. This project provides educational resources and practical tips to people living in developing countries. The educational tools for all levels of knowledge: nurses, health officers, residents, as well as dermatologists.

Every year more organisations join the World Skin Health Day campaign to recognise skin health around the world.

Together we can raise awareness of skin health at local, national and global levels. To take part in World Skin Health Day visit our website:

WorldSkinDay.org

World Skin Health Day is a joint project of the International League of Dermatological Societies (ILDS) and the International Society of Dermatology (ISD)
The International Foundation for Dermatology (IFD) was created in 1987 to carry out the humanitarian work of the ILDS.

For more than 20 years the ILDS, through the IFD, has been working to improve dermatological care in resource-poor areas. Today we provide long-term support to projects in Argentina, Cambodia, Mexico and Tanzania, as well as our annual ILDS DermLink Grants which fund short-term projects.

Recent achievements include the recognition of scabies as a Neglected Tropical Disease by WHO, supporting and working with the International Alliance for the Control of Scabies (IACS), and the inclusion of itraconazole and voriconazole on the WHO Essential Medicines List.

Regional Dermatology Training Centre

The Regional Dermatology Training Centre (RDTC) in Moshi, Tanzania, is a flagship initiative of the IFD. It is a supra-regional training, research and clinical centre. It provides care to dermatological patients and training to medical Assistants and Clinical Officers.

The RDTC was founded in 1990 as a joint enterprise between the ILDS, the Tanzanian Ministry of Health and Kilimanjaro Christian Medical Centre (KCMC) on land provided by the Good Samaritan Foundation.

To date the RDTC has trained more than 290 graduates from 17 African countries in its Advanced Diploma in Dermato-Venerology (ADDV).

These graduates continue their engagement with the RDTC by returning annually for the Continuing Medical Education (CME) conference every January. The CME provides an important opportunity for graduates to improve their skills and learn from speakers from all over the world.

The ILDS Board visits the RDTC at least once during each four-year term, with Board Members often speaking at the CME Conference. In addition to this the Conference is regularly attended by the IFD Chair, Dr Claire Fuller. ILDS Member Societies also support the CME, contributing speakers and providing donations to the IFD for our ongoing support of the RDTC.
ILDS DermLink

ILDS DermLink provides support for ILDS Members to undertake pilot or one-time projects and initiatives that help patients with skin disease in under-served parts of the world.

There are three types of grants: Field/Community Projects; Materials and Equipment; and Individual Training.

Past projects include:
- Training in financial sustainability for a lymphedema self-help group in Ethiopia
- Provision of treatment at Internally Displaced People (IDP) camps in Nigeria
- Development of a mobile teledermatology programme in the Philippines
- Free consultations provided to rural populations in Cambodia
- A campaign to promote education and awareness of sporotrichosis in Brazil

Applications open annually in December. Visit www.IFD.org for details.

Community Skin Health Journal

The Community Skin Health Journal (CSH) is the official Journal of the IFD (formerly known as the Community Dermatology Journal).

The Journal is a resource for healthcare workers in resource poor areas. It provides up-to-date, relevant information on the diagnosis and treatment of skin disease.

The Journal is published twice a year with over 10,000 copies sent to nearly 200 countries free of charge. The CSH is available in English, French and Spanish.

It is free to subscribe to either the digital or paper issue. Please visit: www.ilds.org/our-foundation/community-skin-health-journal to subscribe.

You can also download the CSH App for your phone or tablet on Android & iOS.

Write an article for the Journal, the CSH provides a great opportunity to share your work; as an article, report or letter. Visit the CSH website for the Guidelines for Authors. Please send your submission by email to CSH@ILDS.org.

IFD In-Country support

Argentina
The IFD supports the delivery of “foto-dermatology” workshops in schools, dermatological training to community healthcare workers and the provision of a mobile dermatology office in remote parts of southern Argentina.

Cambodia
Cambodian students are undertaking practical dermatology training by spending three months in four different countries in South-East Asia. This increases their exposure to different skin conditions, developing their skills, experience and training.

Mexico
The project we support in Mexico offers direct dermatological care to the rural communities in southern Mexico. It is also enhancing dermatology training in hospitals and health centres via teledermatology courses.

IFD Partnerships

The ILDS/IFD is in official relations with the World Health Organization (WHO) and we work closely with the WHO Neglected Tropical Diseases (NTDs) Team on Scabies and the Integrated Management of NTDs which affect the skin.

Scabies: the IFD supports the International Alliance for the Control of Scabies (IACS), a global network of researchers, clinicians and public health experts dedicated to improving the control of scabies.

Integrated Management of NTDs: the IFD collaborated on the WHO publication “Recognizing Neglected Tropical Diseases through Changes on the Skin: a Training Guide for Front-line Health Workers”.

Neglected Tropical Disease NGO Network (NNN): the IFD is part of the NNN, a global forum for NGOs that contribute to the global control, elimination, and management of consequences of NTDs.
The ILDS has over 175 Members from more than 80 countries and represents over 200,000 dermatologists.

LUGGAGE CLOAKROOM
The Cloakroom is located in Level +1 next to the Registration Area and will be available only as a limited luggage deposit.

ATM
There are 3 ATMs located in Hall 3, Balcony, South Wing Level +1 and North Wing Level +1.

MEETING ROOM CAPACITIES
We want your WCD2019 experience to be a safe one. Every session room has a room capacity that has been approved by Firefighters. Rooms are set to the maximum approved capacity, and no extra chairs can be added. Seating space is limited and cannot be guaranteed. Session seating is available on a first-come, first-served basis.
For safety reasons, the Organising Secretariat will not allow delegates to stand at the back of the room, in the aisles or lean against the walls. People standing will be asked to find a seat in the room and delegates will be stopped from entering the session during this time.

ATTIRE
Business casual attire is appropriate. Room temperature can vary in session rooms. We encourage attendees to dress in layers for their personal comfort.

CHILD POLICY
The Congress does not provide childcare. Please visit WCD2019 official website_practical info_babysitter service. Children under the age of 18 are not allowed to access in the whole Congress Venue and Welcome Cocktail.

CERTIFICATE OF ATTENDANCE
Congress attendance certificates can be downloaded online, by accessing your User Area, 10 days after the end of the event. An email will be sent to inform all participants of the correct procedure.

CONCESSIONS / FOOD SERVICES
Breakfasts, lunches and coffee breaks are NOT included in the registration fee. Sandwiches, snacks and beverages can be purchased at one of several convenient catering areas located in the South Wing, Level 0 and Level +2, North Wing, Level +1 and in the Exhibition Hall. Please refer to the floor plan for orientation.

CONGRESS NEWSPAPER
Daily online newspaper can be downloaded on WCD2019 App.

EMERGENCY SERVICES AND FIRST AID
There are two First Aid points:
- Hall 3, Balcony
- South Wing Level +1, Balcony

WHEELCHAIR AND DISABLES ACCESS
All floors of the Congress Venue can be reached by elevators.

INSURANCE
The Congress fee does not include individual insurance coverage. All participants are advised to arrange their own travel and health insurance, which must be purchased in their country of origin. The organisers will also not be responsible for loss or damage to a person or personal belongings.
MOBILE PHONES & PERSONAL DEVICES
Please be considerate by silencing all notifications on your mobile phone, laptop and personal mobile devices prior to entering any session room.

PHOTOGRAPHY

ABOUT MILAN

TIME ZONE
Milan is in the Central European Time (CET) Zone, 1 hour ahead of Greenwich Mean Time (GMT), and observes Daylight Saving Time.

LANGUAGE
Italian is the official language of the country.

BANKING
Regular banking hours in Italy are 08:30 – 15:45, from Monday to Friday. Most banks have automatic teller machines, which can be accessed 24 hours a day, using bank or credit cards on major international banking networks.

CURRENCY AND FOREIGN EXCHANGE
The currency used in Italy is the euro (€). One euro is divided up into 100 euro-cents. There are eight different coins (€ 0,1 - 0,2 - 0,5 - 0,10 - 20 and 50 euro-cents) and seven notes (5, 10, 20, 50, 100, 200 and 500 euros).

CURRENCY EXCHANGE
For currency conversion, please visit the Banca d'Italia’s website for up-to-date rates: https://tassidicambio.bancaditalia.it/

TRAVELLER’S CHEQUES
Travellers cheques (in USD or Euros) can be cashed in Italian banks.

CREDIT CARDS
As well as in cash, purchases can be paid for using the most common credit cards. This payment system is common in Italian shops, which generally display the symbols of the credit cards they accept on the outside door. If you pay by credit card you will be asked to show an identity document.

ELECTRICITY
In Italy the electrical current is 220 volts AC (50 Hz).

TIPPING
Tips are not compulsory and in Italy there are no generally established rules, although it is common practice to leave a sum amounting to around 10% of the bill if you are satisfied with the service you have received.
GETTING AROUND MILAN

Milan’s city centre is quite compact and - if you like to explore on foot - easy to walk in. It’s also blessed with three major modes of public transport that form an excellent network throughout not only the city centre but neighborhoods further out as well.

- **Metro** - Like many big cities around the world, Milan has a subway system. The three lines serve almost all the tourist stops in the city (as well as plenty of other places besides).
- **Tram** - The other main rail-based transport in Milan is the city’s network of trams. There are more tram lines than subway lines, and depending on where you are in the city, these can be really convenient to get where you’re going.
- **Bus** - Milan’s buses cover many of the same areas that the Metro and trams do.

---

**TAXIS**

Radiotaxi companies can be contacted on the following telephone numbers:

- Taxi Blu: +39.02.4040
- Taxi Freccia: +39.02.4000
- Radio Taxi Milano: +39.02.5353, +39.02.6969
- Taxi for disabled people can be booked calling: +39.02.4040, +39.02.6969, +39.02.8585

**CONGRESS VENUE**

**MiCo – Milano Congressi**

GATE 2 – Viale Eginardo
GATE 16 - Via Gattamelata

**MiCo – Milano Congressi** is one of the largest conference facilities in Europe and worldwide. The Exhibition Halls offer 15,000 sq.m. of exhibition. Everything is within easy reach, including the city’s finest attractions, such as Leonardo’s Last Supper. And the old part of town is just one Metro stop away!

4 ILDS MEMBER SOCIETY & ANCILLARY GROUP MEETINGS

Monday 10 June, 2019
The following satellite sessions have been organised by national and international societies (i.e. ILDS member societies and affiliate groups) for the benefit of WCD2019 delegates. They represent and adjunt to the main World Congress scientific programme and are meant to showcase activities and expertise in dermatology from around the world.

Attendance at these sessions is generally open to all WCD2019 registrants but for some sessions, advance pre-registration through the individual societies may have been required.

5 SCIENTIFIC SESSIONS
Dear Friends and Colleagues,

The Scientific Programme Committee of the 2019 World Congress of Dermatology is delighted to welcome you to Milan.

We believe we have assembled an innovative, wide-ranging and truly global programme of symposia, workshops, courses and controversies delivered by the leading specialists in their fields.

This is complemented by invited and keynote plenary speakers of the very highest calibre.

Our objective is to deliver an accessible blend of clinical, practical and scientific education that will allow you to better manage your patients wherever they may be around the world.

Professor Christopher Griffiths, OBE MD FMedSci

CME ACCREDITATION

The 24th World Congress has received accreditation from European Accreditation Council for Continuing Medical Education (UEMS/EACCME®).

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form on the official Congress App.

The EACCME® awards ECMEC®s on the basis of 1 ECMEC® for one hour of CME with a maximum of 8 ECMEC®s per day.

Doctors must only claim ECMEC®s for those LEES, or part of LEES that they have attended, and should ensure that do so in accordance with their home country’s criteria.

In order to require the recognition of ECM credits, Italian healthcare professionals can submit to their professional order the useful documentation (ID, ECMEC® certificate, programme of the event and dedicated request form). The professional order will evaluate the event and the possible recognition of the credits.

The UEMS-EACCME® has mutual recognition agreements with the American Medical Association (AMA) for live events and e-learning materials and with the Royal College of Physicians and Surgeons of Canada for live events only.

The CME certificate will be sent via email after the Congress.

FACULTY CONFLICT OF INTEREST DISCLOSURES

According to the UEMS-EACCME® WCD2019 requires that all individuals who make any presentation at the Congress declare their conflicts of interest in relation to their presentation(s). If there are no relevant conflicts this must be also be specifically declared. The list of conflict of interest declarations is available for review on the Congress website www.wcd2019milan.org/cme. All presenters must provide a declaration of COI at the time of presentation. More detailed information on individual disclosures by any specific author, listed by specific type of conflict and commercial relation(s), are available for review by direct request to the Organising Secretariat.

CARING CONSCIOUSLY, LIVING BETTER.

We nurture with our agronomists and botanists a unique passion for botany. We control every step of our production and we offer products manufactured 96% in France. We constantly innovate in partnership with healthcare professionals and embed our pharmaceutical expertise in clinical practice. We put every formula through the most stringent testing process in order to offer you and your patients intelligent and safe dermatological and cosmetic care.

Each year, 750 to 1050 clinical studies are conducted by more than 70 experts. Each dermo-cosmetic product is tested on 300 to 1000 volunteers.

Over 50 years ago, we made our vision of uniting health and beauty a reality by inventing dermo-cosmetics to offer your patients long lasting care. Together, with respect for all of our differences, let us strive toward better living.

**UCB** is a global biopharmaceutical company focused on the discovery and development of innovative medicines and solutions to transform the lives of people living with severe diseases in dermatology, rheumatology and neurology. UCB employs 7500 people in approximately 40 countries. UCB’s ambition is to be the patient-preferred biotech leader creating patient value for specific populations through unique outcomes, the best individual experience, and improving as many of these lives as possible.

Everything we do starts with a simple question: “How will this create value for people living with severe diseases?”. Rather than commencing research from a scientific point of view, we start with the patient perspective. This means improving our ability to stratify patients; implementing a new development paradigm to improve success rates and efficiency; tailoring our market approach to the specific local patient environments and implementing value based access and pricing.
